MAC Address ?

Diagram illustrating the structure of a MAC address (Media Access Control address). The address is represented as a sequence of 48 bits, divided into two main sections: a 16-bit OUI (Organizationally Unique Identifier) and a 32-bit MAC (Media Access Control) address. The OUI is highlighted in red, and the MAC is highlighted in blue.

□□□□□MAC □ ?

Diagram illustrating the structure of a packet header, showing two MAC addresses (Media Access Control) followed by a long sequence of empty boxes representing data or padding.

Diagram illustrating the structure of a MAC address, showing a sequence of 48 bits (represented by boxes) with the label 'MAC' indicating the address format.
